Sponsored Projects 2003 Annual Report • 1
The Office of Graduate Studies and Research and the Office of Budget and Accounting administer the research function at Texas A&M University-Corpus Christi (TAMU-CC). Several other offices support Sponsored Program activity including Human Resources, Purchasing, Accounts Payable, Accounts Receivable and Travel. The System provides support through the Technology Licensing Office and by providing legal counsel.

The Dean of Graduate Studies and Associate Vice President for Research and Scholarly Activities oversees graduate academic affairs including admissions & records. He works with the Graduate Council and Research Council to promote graduate education and research. He also serves as the institutional representative for signature on proposals and contracts.

The Graduate Studies and Research office provides pre-award and post-award services. The services include providing funding information for faculty, website management, database management, budget and proposal development, agency forms and formats, routing, copying, submitting proposals (paper and electronic), negotiation with sponsors to finalize awards or contracts, interacting on behalf of the University with system legal counsel, setting up new accounts, monitoring spending, billing, providing financial reports, requesting extensions and performing closeout activities.

The office provides administrative support to the Institutional Review Board, Institutional Animal Care and Use Committee, the Conflict of Interest Committee and ensures compliance on a number of issues prior to proposal submission.

In addition, the office will assist with hiring, payroll, travel, purchasing from sponsored funds, copyrights, patenting and licensing.
Grants & Contracts activity has increased over the past 5 years with awards in the range of $5 million in the late 1990’s to about $10 million - $12 million over the last 3 years. Growth will likely continue primarily because the number of faculty is increasing. If the enrollment projections for the future are met, it is expected that faculty growth will be about 13 per year or approximately 5% per year. In addition, Center/Institute functions will change in the coming decade (i.e. Harte Research Institute) which adds to continued growth in Grants and Contracts to the University.

In Fiscal Year 2003 the office was comprised of the following employees:

Dr. Harvey Knoll, Dean of Graduate Studies and Associate VP for Research
Andrea Brown, System Support Specialist
Geri Fernandez, Secretary
Sandra Garcia, Sponsored Programs Coordinator
Renee Gonzales, Accountant II
Phyllis Hughes, Sr. Administrator for Sponsored Programs
Laura Rosales, CRA, Sr. Grants and Contract Administrator

(Personnel Changes for FY 04 include Renee Gonzales, Grant and Contract Administrator, Joanne Palmer, Accountant II and Liza Mucheru-Wisner, System Support Specialist I)
ALL COLLEGES RECEIVE AWARDS

Table 1 is a compilation of the awards received in FY '03 and is separated into units such as departments, colleges and institutes/centers based on Principal Investigator's (PI) location. There are also some collaborative projects with PI's from different colleges. These are shown in the totals under the department/college of the primary PI.

Some projects are listed in a department but may in fact be handled through a center/institute, (e.g. Some projects in the Physical and Life Sciences Department are managed by the Center for Coastal Studies. It is most gratifying to find sponsored program activity spread through so many entities.

FUNDING TRENDS CONTINUE...

Grant and Contract monies come to the University from varying sources. In this graph they are divided into Federal, State and Other. Figure 1 shows that the majority of grant funding is derived from Federal sources (approximately 55%). The funding percentage by source has been fairly consistent over the past 5 years.

Figure 1: Awards by Source Fiscal Year 2003

Figure 2: 118 New Awards by Type Fiscal Year 2003

47% of Revenue

EDUCATION & SERVICE
$2.47M

53% of Revenue

RESEARCH
$2.85M

The trend in award type continues to be equally split between Research and Education. This has been true over the past 5 years. When looking at total awards in FY '03 (including awards from prior years) slightly more than half are for research (Figure 2).
Of the almost $11M awarded for FY '03, $3.2M was awarded through TEES-CC. The University ended its contract with the Research Foundation (TAMU-RF) in FY '02. Several awards that were with TAMU-RF were transferred to TAMU-CC and therefore are not shown in the TAMU-RF totals in Figure 3. In FY '03 the transition was completed. The chart shows projects that are already awarded that will flow over into FY '04 and FY '05. There are typically 100 to 150 open accounts at TAMU-CC and another 10-20 at TEES, not including Facilities and Administrative Cost (F&A) accounts.

FY '02 received the greatest number of multi-year awards for the University with a total of 38. While there were only 7 multi-year awards, FY '03 had the second highest number of awards with a total of 77.
GRANT REVENUE continues to exceed $10 Million

Grants and contracts exceed 10% of the total University revenue, making Grants and Contracts a significant component of the total revenue. This revenue continues to be spread across all colleges (as seen in Table 1) and has been awarded to fund the University’s research, teaching and service activities.

Most of the awards are for periods of one year or less however, several awards are for multi-year projects. Figure 5 graphically represents the award data by year such that multi year awards are spread over the entire period of the grant rather than just the single year of the award allowing projections through FY ’05. This representation will ultimately show trends similar to the expenditure trends. There is a slight decrease in FY ’03 but each of the last 3 years show a trend of revenue exceeding $10M. This trend is anticipated to continue through FY’04.

Grants and contracts awarded specifically in FY ’03 yielded (multi-years included), 5.3 million (Figure 6).
NUMBER OF SUBMISSIONS INCREASE . . .

Our target for submissions is $30 - $40M. This target was reached in FY’03 and will be reached again in FY’04. More than 2/3 of the small proposals submitted to regional entities receive awards.

Less than 1/3 of the federal multi-year proposals are funded. The large dollar value of submissions in FY’02 resulted from a single $20M submission to NSF and three different proposals submitted to NOAA totaling approximately $20M.

The indicators of proposal traffic are both the number of submissions and the number of awards. As shown in Figure 8, submissions have steadily increased over the last 2 years. FY ’03 had the largest number of submissions at 163 with almost 80 of them being awarded. Typically more than half of the submitted proposals are funded.

Figure 7: Dollar Amount Submitted

Figure 8: Number of Submissions Vs. Awards

The Island University
Graduate Studies and Research
Texas A&M University–Corpus Christi
Facilities and Administrative (F&A) requested in Fiscal Year 2003 was $5.2M which is approximately 15% of the total submission amount.

The awarded amount of F&A is approximately 12% of the requested. Total F&A awarded in Fiscal Year 2003 was $635K and is anticipated to increase in Fiscal Year 2004.

**TAMUCC Figure includes TAMU Research Foundation through 2002**
INSTITUTIONAL REVIEW BOARD [IRB]

As Research continues to grow and expand on the campus of TAMU-CC, the number of protocols reviewed by the Institutional Review Board (IRB) is increasing. [Table 2] As set forth by federal regulations, TAMU-CC requires that any research involving Human Subjects be approved by the Institutional Review Board.

The IRB committee is composed of two faculty members from each college, and two community members who are not affiliated with the University. The IRB committee meets approximately once a month to discuss and review submitted protocols. The committee ensures that any research involving human subjects is performed in a manner that would not jeopardize or harm the well being of the subject involved. All research using human subjects must include a very clear statement of informed consent. Upon approval from the IRB committee, Researchers can proceed with the study intended.

The committee members for Fiscal Year 2003 are as follows:
- Dr. Mark Hartlaub, Chair – College of Arts & Humanities
- Dr. Joseph Jozwiak, Jr. – College of Arts & Humanities
- Dr. Patrick Crowley – College of Business
- Dr. Karen Middleton – College of Business
- Dr. Karen Koozer-Olson – College of Science & Tech. (Nursing)
- Dr. Fereshteh Billiot – College of Science & Tech.
- Dr. Tom Linton – College of Education
- Dr. Dan Pearce – College of Education
- Mr. Jay Farrar – Community Representative (Non University personnel)
- Dr. Ardys Boostrom – Community Representative (Non University personnel)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC)

The Provost and Vice President for Academic Affairs appoints Institutional Animal Care and Use Committee (IACUC). The committee assesses the University’s animal facilities and all protocols for research involving animals prior to experimentation and also reviews all protocols in grant proposals that include the use of animals. The committee, which is the inaugural committee was formed in FY 2002 and is listed below:

Members of the IACUC include:
Dr. Suzzette Chopin, Chair
Dr. Graham Hickman
Dr. Jo Ann McDonald
Dr. Doug Posey, DVM
Ms. Debbie Prevratil, Texas State Aquarium

Stream Gauging Graduate Students gauge the Nueces river to provide water quantity information.
The Research and Scholarly Activity Council enhances academic research activities at the University. The council is comprised of one faculty representative from each college, plus directors of the University’s research centers, the chair of the Institutional Review Board, and representative from the Library. The chair of this committee is Dr. Harvey Knull, Graduate Dean and Vice President for Research & Scholarly Activity.

Members of the council include:
Dr. Harvey Knull, Chair
Dr. Alan Berkebile
Dr. Grady Blount
Dr. Jim Bonner
Dr. Jack Cassidy
Dr. Leon Dube
Dr. Swint Friday
Dr. Mark Hartlaub
Dr. Janis Haswell

The Research Enhancement program was administered through the Office of Planning and Institutional Effectiveness. In FY '04 this program will be relocated to the Office of Graduate Studies & Research and will be overseen by Dr. Harvey Knull.

The program provides funds for summer research. Most often, the awards are intended as “seed” money to help start a larger project. In FY '03, 14 proposals were submitted totaling over $144,000.

The amount of award money available for Research Enhancement Grants is currently $110,000. Of this amount, $44,000 was dispersed among the colleges to allocate to projects within each college. The remaining $66,000 was awarded to 7 of the 14 proposals submitted. The awarded proposals are listed below.

**2003-2004 Research Enhancement Grant Recipients University Level**

- **Dr. Gregory Stunz** - $12,650 – “The Role of Oyster Reef as Essential Habitat of Finfishes and Invertebrates”
- **Dr. David Blanke** - $10,250 – “To Live Free & Die: The Automobile, Personal Freedom & Culture of Risk in the US 1900-1940”
- **Dr. Lillian Waldbeser** - $10,960 – “Determining the Role of the Outer Membrane Protein PorA in Apoptosis of Human Macrophages”
- **Dr. Jim Lee** - $7,897 – “Family Businesses and Employment Stability: An Empirical Examination”
- **Dr. Fereshteh Billiot** - $8,521 – “Synthesis & Characterization of Novel Amino Acid Based Surfactants for Enantiomeric Separation”
- **Dr. Ronald Shearer** - $6,225 – “Bismarck, the Wounded Lion, & Great War: Commemoration & National Identity in Germany Across WWI”
- **Dr. Rachel Salas** - $8,762 – “Hispanic Women in Teaching: How did they get here? How do we keep them?”
ACADEMY SPEAKS Featuring Dr. Janis Haswell

Dr. Janis Haswell, Associate Professor of English in the College of Arts and Humanities received the University Outstanding Research Awards in FY 2003 for her scholarly activity. The ACADEMY SPEAKS program is the University’s opportunity to celebrate the research award. Dr. Haswell is the first awardee to be honored in this fashion. ACADEMY SPEAKS will now be an annual event which will be hosted by the Graduate Studies and Research Office, the Research and Scholarly Activity Council and combined with the Bell Library’s publication reception. A different faculty member will be recognized each year. Dr. Haswells’ speech was entitled, “The Two Towers: Authorial Scripts and Student Texts”.

Dr. Janis Haswell’s numerous publications reflect the remarkable breadth of her professional interest and expertise. Long fascinated by effects of the British imperial experience, she has coauthored the Introduction to the Raj Quartet (University Press of America, 1985), and recently completed a new monograph, Paul Scott’s Philosophy of Place(s): The Fiction of Relationality (Peter Lang, 2002). Scholarly essays and reviews on these subjects have appeared in a variety of journals, including Studies in the Novel, Modern Fiction Studies, and South Carolina Review. She has given presentations on Scott and the Raj Quartet at the South Atlantic Modern Language Association, with another paper scheduled at this year’s American Political Science Association convention. Dr. Haswell is also an authority on the renowned Irish poet, W.B. Yeats, having written Pressed against Divinity: W.B. Yeats and the Feminine Mask (Northern Illinois University Press, 1997).

Committed to linking her work in the classroom with her scholarship, Professor Haswells’ interest in teaching courses on the literature of America’s war in Vietnam has resulted in publication in the Viet Nam War Generation Journal. Similarly, Dr. Haswell has assessed her use of the Holocaust as a means of engaging students in an essay for the Journal of Teaching Composition, a forthcoming article in Pedagogy, and presentations to the Conference on College Composition and Communication and the Conference on the Legacy of the Holocaust. Her interest in composition studies-particularly the role of gender in student writing-has led to contributions in numerous anthologies, journals and conference presentations.

Professor Haswell’s current projects include papers investigating Tim O’Brien’s The Things They Carried and a co-authored work on “The English Patient”. She is also completing a book-length manuscript, “Gendership: Strategizing Gender for the Student of English,” with Professor Richard Haswell.
